Our Theme

IDEAS Data Visualisation Competition will bring the general theme of Sustainable Development Goals (SDG) by the United Nations, in particular:

• **Decent Work and Economic Growth (No. 8)**

• **Industry, Innovation and Infrastructure (No. 9)**

The participants are required to choose either one of the themes, identify a problem within the realization of these goals in Indonesia, and propose a data-driven solution to accelerate the achievement of these goals. Participants are free to use any reliable data source and any software/tools to visualise the data into relevant figures. IDEAS Data Visualisation Competition will not provide any data to the participants.

The Timeline

Date	Event
2 July 2021	*Open Registration
10 July 2021	Info Session (Kick-Off event)
18 July 2021	Close Registration, Deadline for Submission
21 July 2021	Finalist Announced

Scoring Rubric

Criteria
Problem-solving
Creativity in exploring data
Data visualisation and storytelling
Presentation

Three Data Visualisation Competition judges will determine the scoring in each grid. Reports will be judged based on the 4 factors using a five-point scale (1-5) for each factor. Please refer to the handbook that will be given after the registration for more specified scoring factors.
